

## COWS REFUSE LIQUOR; MILK SUPPLY SHORT

CADIZ, O., June 24. (By International News Service.)—Cows in this vicinity have "gone dry." Prohibition is blamed. Due to the dry amendments to the state and federal constitutions, several hundred gallons of wine, confiscated by dry enforcement officers from illegal possessors, were dumped into a sewer not long ago. The intoxicating beverage ran into a creek which runs through a number of pasture fields. As a result of the cows refusing to drink the "spiked" water, there now exists a shortage in the milk supply here.

## CANCELLATION OF OIL DECREES IS REQUESTED

MEXICO CITY, June 24.—Requests for the cancellation of all petroleum decrees promulgated by the late President Carranza and the right of unrestricted exploration and exploitation of oil lands were presented yesterday to Gen. Jacinto B. Trevino, secretary of industry, commerce and labor, by representatives of foreign petroleum interests, says El Universal. It is asserted the requests were made in the form of an ultimatum, the oil men being quoted by El Universal as declaring they were without power to make any other proposition or accept any other solution. The point was raised that the Carranza decrees, which required the writing of article 27 of the Mexican constitution, nationalizing petroleum lands, were unconstitutional. Gen. Trevino, according to the newspaper, declared he had no authority to discuss the constitutionality of the decrees.
